MAIL-AWAY SIGNINGS – Preventing Fraud

We have experienced claims losses with mail-away signings including mail-away signings in Florida. To prevent fraud in mail-away signings, whether the signing is in Florida, another state, or another country, the Best Practice is for you to select the notary and coordinate the signing with that notary. The signed documents should be delivered to you by the signor with a copy of the identification provided. After receiving the documents, you should confirm with the notary that the signor did go to that notary, provided appropriate identification, and signed the documents in the presence of that notary.

Information Bulletins are designed to provide our agents with information we think will help in managing their business or just being better title professionals, but which does not rise to the level of being an underwriting mandate and are not within the scope of the agency agreement.
