

# ARE YOU READY FOR FLORIDA'S DATA CALL?

---

**You've been hearing about it for two years – Now it's here!**

Beginning January 1, 2014, all Florida Licensed Title Agencies should start capturing detailed information about your business for Florida's Data Call.

**This is mandatory!** Our regulators will enforce non-reporting with fines, penalties and perhaps even loss of Florida licenses. So WFG wants all of our agents to be ready to meet this requirement – and to help you complete the task with a minimum of difficulty.

To help our agents understand the new requirements and to "Get Ready," WFG is offering:

- A recorded presentation introducing Florida's data call. This overview includes copies of the actual data call report forms.
- A five part series in which WFG's Alan Fields drills into the data call requirements and offers specific ideas for implementing systems in your office. These presentations are designed for the accounting and management personnel responsible for completing the data call, but will be informative for all.
- The files accompanying each of the presentations include tips, suggestions, checklists and even sample spreadsheets to consider implementing in your office. We invite each of our agents to take advantage of these exclusive WFG materials.
