

Closing Services

Service Provider Transaction Fee Structure

RealEC® Technologies' **Closing Insight™** technology offers a collaborative closing service for a more efficient communication process between lenders and settlement agents to produce final closing costs and settlement statements.

Provider transaction fees are incurred based on which party initiates the title and closing order using the **Exchange™** technology, the foundation for Closing Insight.

Service Provider Technology Delivery Fees

Orders From Closing Insight Lenders			Orders From Lenders Not Using Closing Insight	
Exchange-Directed Any purchase or refi order directed to a settlement agent by a RealEC user.	Existing A lender invites the settlement agent to collaborate via RealEC's Exchange for the agent's existing order.
