Settlement Agent Registration Announcement

RealEC® Technologies (RealEC), a division of Black Knight Financial Services, will open its **Closing Insight™** Settlement Agent registration on Wednesday, April 15, 2015. We are working with our Closing Insight Partner Network and leveraging our various communication channels to encourage all settlement agents to register their office locations and users before the August 1, 2015 production date.

Settlement Agent Registration will be available at www.ClosingInsight.com. During the registration process, settlement agents will be asked to provide basic company and user information, including company name and primary address, software application utilized and any applicable software license IDs. Settlement agents using software from RealEC's Closing Insight Software Partner Network will be able to leverage our direct integration and will receive a notification from their software provider on how to locate their Software ID and additional information on training and configuration. The list below is our current Closing Insight Software Partner Network:

- SoftPro Standard, SoftPro Enterprise, SoftPro Select and IMPACT (SoftPro Corp.)
- FAST, StreamLine and TitleExpress (First American and SMS)
- RamQuest
- AIM+ (Stewart)
- ResWare (Adeptive)
- SnapClose (Cornerstone Management Solutions)
- Landtech (Landtech Data Corporation)
- RBJ-Edge (RBJ Software, Inc.)

Settlement agents using proprietary software or commercial software outside of the Closing Insight Software Partner Network will be granted access to Closing Insight through RealEC's Exchange™ Service Provider Web Portal, an easy-to-access website where agents will be able to interact electronically with the lender.

Starting in May, settlement agents will begin receiving information about upcoming training opportunities to help them get up to speed on Closing Insight technology before August 1.

For additional information on Closing Insight, including our FAQ, transactional pricing and other important resources, please visit www.ClosingInsight.com.

Closing Insight

Closing Insight is designed to streamline the closing process and support the TILA-RESPA Integrated Mortgage Disclosure rule. Closing Insight was built in conjunction with RealEC's Exchange™ platform, a Web-based technology that delivers the largest, fully interconnected network of lenders and service providers in the U.S.

About RealEC Technologies

RealEC Technologies, a division of Black Knight Financial Services, offers a suite of advanced, Web-based technology solutions designed to enable lenders to effectively manage the loan origination process and help them meet investor salability requirements.

Founded in 1998, RealEC delivers technology that connects lenders and mortgage service providers, helping to manage the electronic exchange of data between multiple parties. RealEC also offers a suite of analytic solutions that evaluate and assess loan data to proactively identify data quality issues that affect loan salability. The company supports the top 100 mortgage originators and their business partner networks, offering solutions in a hosted environment to deliver maximum operating leverage.
